Project Title	Calling all iPad developers-- we need you to make surveys! Housing, Site, and Hospital Surveys!
Project Summary	Create intuitive, user-friendly, iPad surveys that are compatible on both an iPad and desktop computer. Utilize drop-down menus, check boxes, Apple Pencil, etc.
Country	Singapore
Agency	Department of State
DoS Office	N/A
Post	SINGAPORE
Section	RSO
Number of Interns	1

Project Description

Create three surveys - 1. an iPad hospital survey, 2. an iPad site survey, and 3. an iPad housing survey. The surveys will improve the current Microsoft Word documents that we use, but be on a platform that is compatible on both iPad and desktop computer. The improved surveys will utilize tools that will make completing surveys possible without having to use the keyboard (e.g., drop down menus, check boxes, Apple Pencil, etc.).

Desired Skills Interests

Additional Information

We're looking for a design / data visualization / software development whiz who will make the off-site surveys we create for the Regional Security Office in Singapore dynamic, visually-appealing, and user-friendly! Can you help us create surveys that will ultimately help Americans safely and securely conduct diplomacy in Singapore? Apply now!
